

# Halloween: **Pumpkin Mobile**

## You will need:

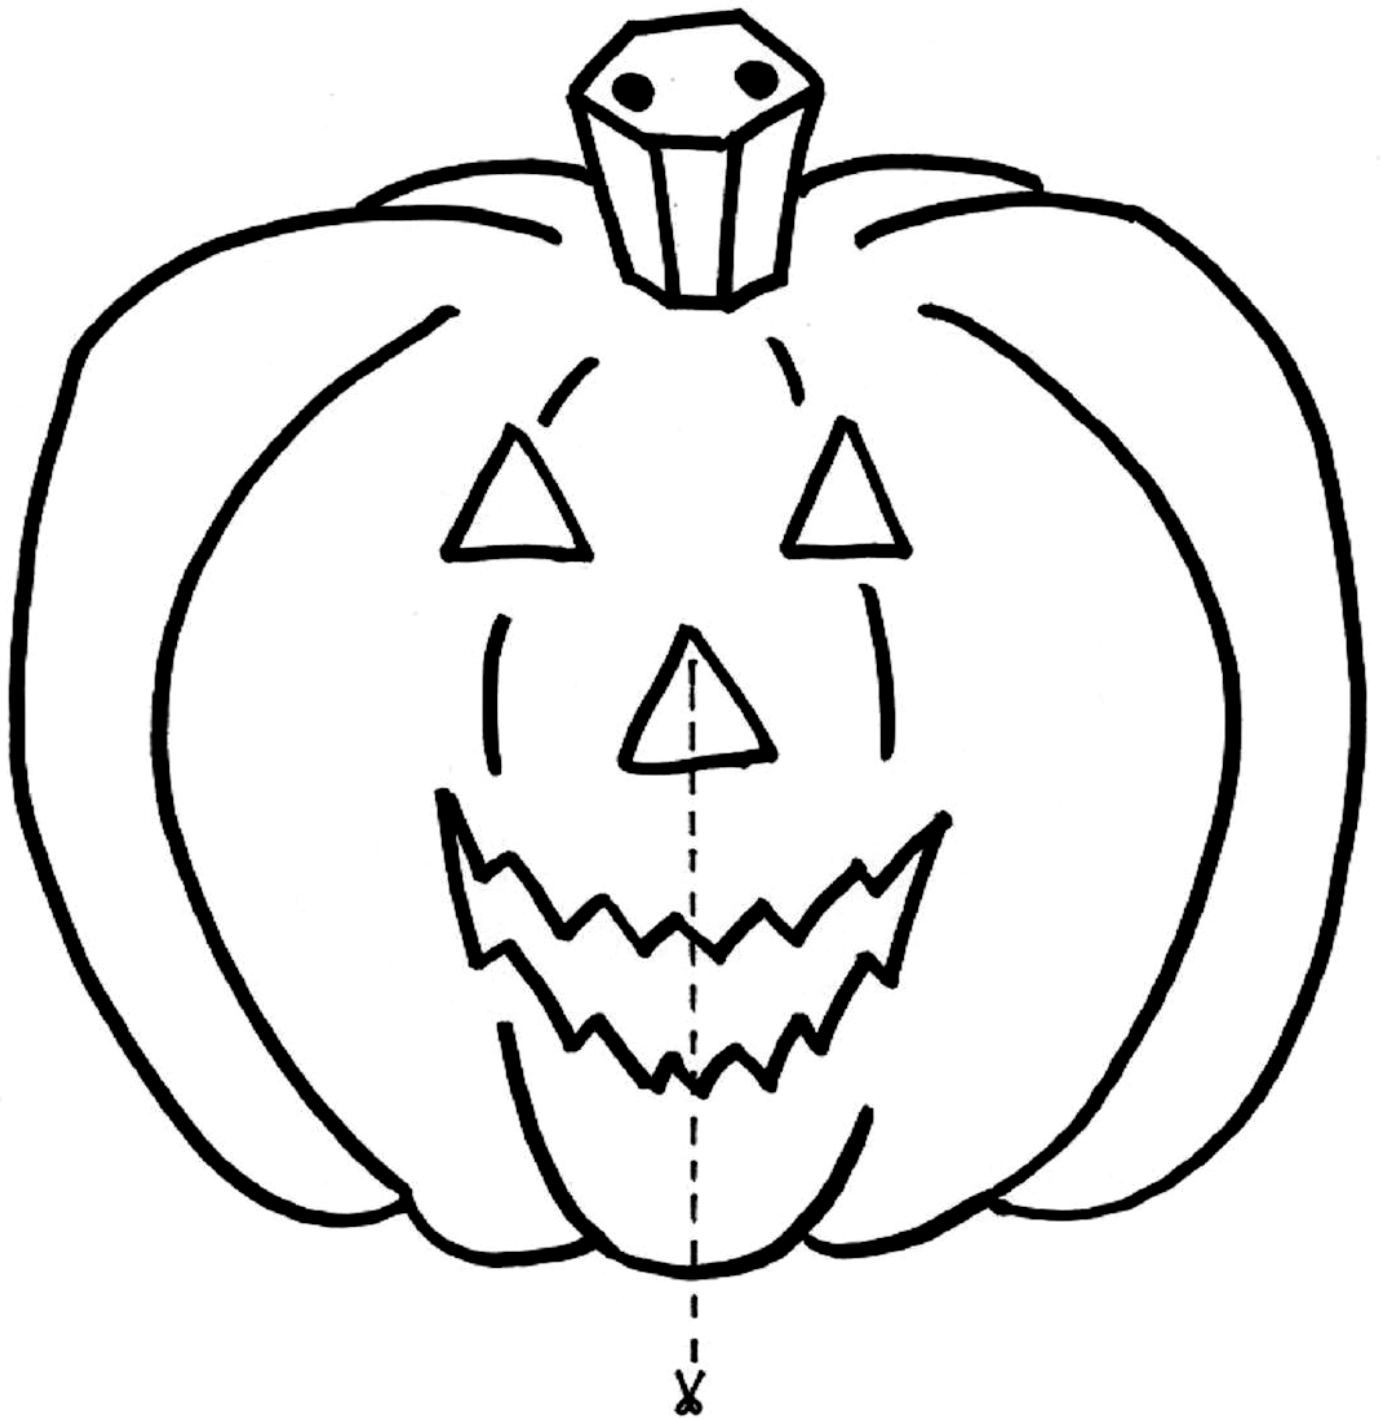

- Worksheets A and B (see following pages)
- White card (2 A4 sheets per child)
- Colouring pens or pencils
- 'Invisible' nylon thread or cotton
- A hole punch
- Scissors

## Instructions:

1. For each student in your class make double-sided photocopies of both Worksheet A and Worksheet B onto white card.
2. Depending on the age group you are teaching, cut out both double-sided pumpkins, or get the children to cut them out. Cut along the dotted lines from the edge of the paper to the centre.
3. Get the children to colour in their pumpkins.
4. Make 2 holes in the 'stalk' of each pumpkin using a hole punch.
5. Slot the 2 pumpkin shapes together so that they look like a cross from above.
6. Tie a piece of thread through each hole then knot them together to make your mobile secure.
7. Decorate the classroom with these spooky mobiles!
