About your book 4

APPENDIX: The scientific method 8

BLOCK I		THE HUMAN BODY AND HEALTH		12	
UNIT		CONTENT		FINAL SECTIONS	
1 The organisation of the human body	14	1. Levels of organisation of living things	16	Revision activities	30
		2. Levels of organisation of the human body	17	Science practical	
		3. Human cells	18	Observing animal cells	32
		4. Human tissues	21		
		5. Organs and systems	26	Work on your key competences LS	
		6. How the systems work together	29	Nutritional deficiency diseases	33
2 Food and nutrition	34	1. The difference between eating and nutrition	36	Revision activities	50
		2. Food needs	40	Science practical	
		3. Diet	42	Identifying nutrients	52
		4. How diet influences our health	46		
		5. Food-related disorders	48	Work on your key competences LS	
				How much sugar is there in my drink?	53
3 Nutrition: the digestive and respiratory systems	54	1. Nutrition and the human body	56	Revision activities	76
		2. The digestive system	58	Science practical	
		3. The respiratory system	70	The construction of physiological models	78
				Work on your key competences LS	
				The smoking bottle	79
4 Nutrition: the circulatory and excretory systems	80	1. The internal environment	82	Revision activities	98
		2. Blood	83	Science practical	
		3. The heart	84	Dissecting the heart of a mammal	100
		4. The journey of blood through blood vessels	86		
		5. The lymphatic system	90		
		6. Disorders of the circulatory system	92		
		7. The excretory system	94	Work on your key competences LS	
		8. Disorders of the excretory system	97	Stress test	101
5 Interaction: the nervous and endocrine systems	102	1. Interaction	104	Revision activities	120
		2. Neurons and neuronal communication	106	Science practical	
		3. Organisation of the nervous system	108	Dissecting the brain of a sheep	122
		4. The endocrine system	116		
		5. Taking care of the nervous and endocrine systems	118	Work on your key competences LS	
				Your mobile phone: friend or enemy?	123
6 Interaction: receptors and effectors	124	1. Perception of stimuli and sensory receptors	126	Revision activities	142
		2. Senses and sensory organs	128	Science practical	
		3. Locomotor system	134	How sense organs work	144
		4. Looking after the sensory and locomotor systems	140	Work on your key competences LS	
				Design a route to school	145

UNIT	CONTENT	FINAL SECTIONS
7 Reproduction 146	1. Reproduction and sexuality 148	Revision activities 166
	2. Changes during our reproductive life 149	Science practical
	3. The male reproductive system 150	Representing the human reproductive cycle 168
	4. The female reproductive system 152	
	5. Gamete production: Gametogenesis 154	
	6. From fertilisation to birth 157	
	7. Infertility and assisted reproduction 161	
	8. Contraceptive methods 162	Work on your key competences LS
	9. Sexually transmitted diseases 164	Contraceptive methods 169
8 Health and disease 170	1. Health and illness 172	Revision activities 186
	2. Infectious diseases 174	Science practical
	3. Non-infectious diseases 180	Measuring vital signs 188
	4. Drug dependency 182	
	5. Influence of healthcare on our health 184	Work on your key competences LS Studying an epidemic 189
PROJECT	Campaign to promote healthy habits	190
BLOCK II	GEOLOGICAL PROCESSES AND HAZARDS	192
UNIT	CONTENT	FINAL SECTIONS
9 Factors that shape the surface of the Earth 194	1. The Earth's relief 196	Revision activities 216
	2. The sculptors of relief 198	Science practical
	3. How surface water acts on relief 201	Calculating the porosity of sediments 218
	4. Groundwater 204	
	5. Karsts 205	
	6. Coastal relief 206	
	7. The power of wind 208	
	8. The power of ice 210	
	9. Living things and relief 212	Work on your key competences LS
	10. External geological risks 214	Sculptures seen from the sky 219
10 Internal geological processes 220	1. Internal geological processes 222	Revision activities 234
	2. Tectonic plates and internal processes 223	Science practical
	3. Evaluating the risks of internal geological processes 225	Locating the epicentre of an earthquake 236
	4. Volcanoes 226	
	5. Earthquakes 230	Work on your key competences LS Reporting on a disaster caused by geological processes 237
PROJECT	Landscapes through space and time	238
Language practice activities		240
